AMUSEMENTS.

"LITTLE NUGGET" AT ENGLISH'S.
 This bright little comedy scored another success at English's last night. The audience evidenced their delight by frequent and hearty applause. In the school scene, during the trial of "Grinder," "Little Nugget" (Miss Josie Sisson) relates the story of her wrongs at the hands of the old villain in such a pathetic manner as to cause the eyes of the people to moisten with tears. There are several scenes in the play true to life, and the specialties introduced during its progress are the best seen here for some time. Josie and Oscar Sisson, Frankie Jones, Tom Peasley, the Cawthrons and Miss Tullie Chambers are in the first rank of their profession, and very popular here. The company remain at English's the remainder of the week, giving a matinee to-day and Saturday. The prices of admission, 10 and 20 cents, should warrant booming business during the entire week.

THE THOMAS CONCERT.
 The famous Thomas will give his grand concert in this city next Tuesday night at English's. The following is the programme: Symphony No. 2, D major, op. 35.....Beethoven. Adagio molto-Allegro con moto.....Larghetto. Scherzo, allegro.....Allegro molto. The Hunter's Bride.....Raff. Miss Fannie K. Clapper. Le Bal. Symphony Fantastique.....Berlioz. Scene and Aria.....Freischütz.....Weber. Minst. Fuzes-Madi.....List. Hungarian Rhapsody No. 12.....Liszt. Barcarolle (Polynésie).....Gounod. Flying Dutchman.....Wagner. (a) Overture. (b) Duo-"Like to a Vision." Miss Juch and Mr. Heinrich. The Nations.....Moszkowski. I. Russia. II. Spain. III. Italy. IV. Germany. V. Hungary.

The sale of seats opened yesterday and about \$600 worth were sold. This looks as if there will be a crowded house.

THE OLD WORLD GEM COMPANY AT THE GRAND.
 Another large and well-pleased audience witnessed the second performance of the Old World Gem Company at the Grand last night, and every act was well received. The entertainment is a neat, clean and original one, and can not fail to please the most critical. Every feature is a gem, and every performer an artist. There are no more clever people in the profession than the Edelweiss Choir, Miss Ada Laurent, Patrick Feeney, Fritz and Webster, Jugglers, the Herbert Brothers, Marie Lottus and others. By the way, the Herberts gave one of the best acrobatic and gymnastic performances ever seen in this city. They are strong cards, and a valuable addition to the company. The performance, as a whole, is of a varied and most entertaining nature, and no lover of the better class of vaudeville performances should fail to see it. Matinee to-day at 2, and performances again to-night and to-morrow night.

DIME MUSEUM.
 Many were unable to gain an entrance to the Dime Museum on Monday night, and the audiences yesterday and last night were large and highly pleased. The Keane Comedy Company has scored a hit, and is giving a splendid performance of their comedy sketch entitled, "Mrs. Partington." The features in curiosity hall are numerous and attractive. The three-headed somnambulist is one of the best illusions ever exhibited, and the steam man is a wonderful piece of machinery.

THE ZOO.
 This famous West End resort was crowded again last night with a delighted audience. It is now one of the neatest and cleanest places in the city. Matinees Tuesdays, Thursdays and Saturdays and performances every night. Charley Gilmore is as tickled as his new Zoo as a boy with his first pair of boots.

A Beautiful Banniere.
 There can be seen in the show window of No. 50 North Illinois street, a beautiful little banniere, the gift of Miss Louisa Lockwood to the coming fair for the benefit of St. Vincent Hospital. The banniere is a green velours of very rich hue. Set in a gold fringed frame in the center is a large richly embroidered in gold bullion surrounded by glittering shamrocks and flanked with golden tassels, the whole suspending from a gilded staff set on a solid base forming an exquisite piece of workmanship well worthy a visit from our citizens. The fair doctor has evidently been very choicely in selecting the best and most valuable materials for this beautiful specimen of her handiwork. It was unveiled, is a free will offering on the part of the lady in aid of a worthy object. A glance at this little gem will be sufficient to satisfy our citizens of Miss Lockwood's artistic ability and style in gold embroidery.

Better and Worse.
 John Bridges, who was shot at his residence, west of the city, a week ago Sunday, is reported as having a chance for his life.

Mr. Wambaugh, who was reported several days ago as having been badly cut in the hand by a piece of broken glass, is suffering greatly. His hand is very much swollen, and it was necessary yesterday to have a surgical operation performed. James Higgaon, who fell at the Zoo a week ago and broke his leg is lying at the Hospital, with no evidence yet of improvement. It is feared that amputation may yet be necessary.

A PECULIAR SUIT.

Growing Out of the Burial of the Wrong Child.

George W. Wright and L. Vada Wright, his wife, have filed suit for damages against Renihan, Long & Hedges. The complaint alleges that the daughter of the plaintiffs died in December, 1884, and the remains were placed in the vault of defendants by agreement until such time as they might be prepared and ready to bury the same. It is also charged that the defendants did not take proper care of the remains, "but negligently took or allowed the same to be taken and buried or otherwise disposed of, and wrongfully refused and still refuse to inform plaintiffs where said remains have been removed to, further than to say 'your child is in Ohio.'" Demand \$5,000. The firm was called upon after the suit was filed and asked for their statement. Mr. Hedges stated briefly that when the child died the firm was called upon to take charge of the remains. The plaintiff, George Wright, asked for time to pay the funeral expenses, and this was granted. The body was put in the vault with a number of other bodies. Afterward, about March 10, the child of a family named Diffendorfer died. This was placed in the vault also, and a few days later, at 10 o'clock in the morning, the father went to the firm and asked them to get the body to the depot for shipment to a little town in Ohio. As the train left at 11 o'clock, there was no time to lose, and as Mr. Hedges went to the Health Office for a permit another man went to Crown Hill for the body. The two men reached the depot just in time to put the coffin on the train. One day last week Wright and wife wanted to have their child buried. A visit to the vault at Crown Hill revealed the fact that their child was gone. They said they wanted it, and the party returned to the city. Mr. Hedges, after hard work, found Mrs. Diffendorfer, who went to Crown Hill with him and recognized the child in the vault as her own. This, of course, moved her greatly, but she said she was so glad it was there, as she would now have it shipped back to Pennsylvania for burial. The discovery, of course, made it clear that a mistake had been made in the matter and the wrong child shipped to Ohio. The firm then sent word to Wright and said the body returned. Mr. Hedges then told Wright the body was back here, but that he now wanted his money before the body would be released. Beyond this the firm knows nothing, except the filing of the suit above referred to.

PHYSIO-MEDICAL ASSOCIATION.

Opening of the Annual Convention Yesterday—Papers and Discussions.

The Physicists met in annual convention in the College hall, 28 1/2 Indiana avenue, at 10:30 yesterday morning, with Dr. J. S. Byers, of Noblesville, President, in the chair, Dr. E. W. Ellis, of Falmouth, as Secretary, and Drs. S. M. White and A. W. Fisher, Assistant Secretaries. After reading the minutes of last session and other preliminary matters, Dr. S. M. White read a resolution adopted by the American Medical Society, in which was recommended a Board of Examiners for each State, and that no one be allowed to practice who is not licensed by said board. The doctor called attention to the fact that this looked like a tendency to class legislation, and moved that a committee of three be appointed to bring the matter before the American Association of Physio-Medical Physicians and Surgeons, and recommended that a circular be prepared and sent out presenting the real objects of such legislation to the people. Drs. White, Hasty and R. A. Smith were appointed a committee. On motion of Dr. Hasty, a committee, consisting of Drs. Woodard, Harold and Leavens was appointed to ascertain and report the sense of Physicists in this State in regard to medical legislation in general. On motion the regular sessions of the society will be held at 8 a. m., 1:30 and 7:30 p. m. on Sunday. At the afternoon session Robert Waide, M. D., was elected a member of the society. The regular order of business was taken up and the section of theory and practice was presented by Professor Hasty. A paper on "Membranous Cramp" was read by Dr. Leavens, and the subject discussed by Drs. Davidson, Hasty, Smith and others. The sections of surgery and materia medica were presented during the remainder of the afternoon and evening sessions. The questions discussed were of interest to medical men principally, and were participated in by members generally. Dr. Freden's address will be delivered at 4 o'clock this afternoon.

Mrs. Stumph Discharged.
 Mrs. Emma Stumph was defendant in one of the Justice's court yesterday in a peace surety proceeding. She is the divorced wife of Henry Stumph, and the proceedings were instituted by Stumph's present wife, who claimed that she had been threatened with bodily harm. The divorced wife was declared insane last year, and she is still somewhat mentally afflicted, but she pleaded her case with great ingenuity, and exhibited a letter in which the present Mrs. Stumph threatened to shoot her like a cat if she again came upon the premises. The Court discharged her.

This price is certainly within the reach of all, for both lighting and cooking purposes. The convenience and comfort of cooking by gas, especially during the summer months, where a fire is not otherwise required, can only be thoroughly appreciated by those who have had experience in its useful application for that purpose. The Company has sold for use in this city during the last four years a large number of gas stoves, and is satisfied from the many testimonials from its patrons, that these stoves "fill a long felt want."

TO ORNAMENT is to beautify, to decorate is to ornament; but the interior of our dwellings, our churches, our public halls, can not be beautified unless the forms that are placed upon the walls and ceilings are graceful, or bold, or vigorous, or true, and unless the colors applied are harmonious.

Many walls in this city are rendered offensive rather than pleasing by the decorations they bear. There is no department of decorative art in which correct taste is more required than in the selection of Wall Papers. THOSE WHO BUY OF ALBERT GALL miss many of the vexations that are incurred by those who buy of dealers who do not keep abreast of the times in this branch of decorative art.
